Mini 1U Series NVR Quick Start Guide

# Welcome

Thank you for purchasing our NVR!

This quick start guide will help you become familiar with our NVR in a very short time. Before installation and operation, please read the following safeguard and warning carefully!

# **Important Safeguard and Warning**

- All installation and operation here should conform to your local electrical safety codes.
- We assume no liability or responsibility for all the fires or electrical shock caused by improper handling or installation.
- We are not liable for any problems caused by unauthorized modifications or attempted repair.
- Improper battery use may result in fire, explosion, or personal injury!
- When replace the battery, please make sure you are using the same model!

# Note: All the installation and operations here should conform to your local electric safety rules.

## 1. Check Unpacked NVR

When you receive the NVR from the forwarding agent, please check whether there is any visible damage. The protective materials used for the package of the NVR can protect most accidental clashes during transportation. Then you can open the box to check the accessories. Please check the items in accordance with the list. (Remote control is optional). Finally you can remove the protective film of the NVR.

# 2. About Front Panel and Rear Panel

For detailed information of the function keys in the front panel and the ports in the rear panel, please refer to the User's Manual included in the resource CD.

The model number in the stick on the bottom of NVR is very important; please check according to your purchase order.

The label in the rear panel is very important too. Usually we need you to represent the serial number when we provide the service after sales.

# 3. HDD Installation

This series NVR has only one SATA HDD. Please use HDD of 7200rpm or higher.

You can refer to the User's Manual for recommended HDD brand.

Please follow the instructions below to install hard disk.

All figures listed here for reference only.

1. Loosen the screws of the	2. Fix four screws in the HDD	3. Place the HDD in accordance with
rear panel and side panel.	(Turn just three rounds).	the four holes in the bottom.

#### Important:

#### Please turn off the power before you replace the HDD.

#### 4. Front Panel

upper cover back.

The front panel is shown as in Figure 1.

## 6. Local Login

After system booted up, default video display is in multiple-window mode.

Click Enter or left click mouse, you can see the login interface. See Figure 3.

System consists of four accounts:

- Username: admin. Password: admin. (administrator, local and network)
- Username: 888888. Password: 888888. (administrator, local only)
- Username: 666666. Password: 666666(Lower authority user who can only monitor, playback, backup and etc.)
- Username: default. Password: default(hidden user)

#### Note:

For security reason, please modify password after you first login.

Within 30 minutes, three times login failure will result in system alarm and five times login failure will result in account lock!

Figure 3

## 7. Smart Add

When the network camera(s) and the NVR are in the same router or switch, you can use smart add function to add all network cameras to the NVR at the same time.

There are two ways for you to go to the smart add interface. From the startup wizard, click Smart add button. Or on the preview interface, right click mouse and then select Smart add. See Figure 4.

Figure 4

Please refer to the user's manual for detailed information.

#### 8. Web

Open IE and input NVR address in the address column. For example, if your NVR IP is 10.10.3.16, then please input http:// 10.10.3.16 in IE address column.

System pops up warning information to ask you whether install Web plug-in or not. Please click Install button.

After installation, the interface is shown as below. See Figure 5. Please input your user name and password.

Default factory name is **admin** and password is **admin**.

Note: For security reasons, please modify your password after you first login.
